ENCUENTRO

A SPACE FOR ALL OUR VOICES

Encuentro is a vibrant space driven by communities involved in the fight for lung health. Encuentro, meaning 'meeting' or 'gathering' in Spanish, is a place where community activists, civil society, local organisations and others come together with scientists, researchers and policy-makers to rally for a common cause.

Encuentro is organised in conjunction with the 48th Union World Conference on Lung Health, which will bring together over 3,000 participants from more than 125 countries for four days of exchange on the latest science, research and developments in the global lung health community.

Free of charge and open to the public of all ages and backgrounds as well as conference delegates, Encuentro will host events, encourage discussion and inspire activism and change.
